

INTELLIGENT ENDOSCOPY

MEDINTECH VIDEO GASTROSCOPE

MGS-400 MGS-410

The motorized MedInTech Video Gastroscopy provide an intuitive and convenient control interface. They offer the ability to lock the bending section into the desired position using two knobs located at the top right of the control body. The MGS-400 feature two intuitive wheels for vertical and horizontal control of the scope, while the MGS-410 allow for vertical and horizontal control via an intuitive joystick.

One-touch Connector

Simply connect the scope with one touch, and after use, detach and rinse it with the waterproof cap for easy preparation.

Working Channel

The gastroscopy has a 2.8mm working channel enabling lesion treatment during examinations.

Bending Section

Gastroscope bending section can bend up to 210° up, 90° down, 100° left, and 100° right, supporting air, water, and suction functions.

FHD Resolution

The device provides clear and accurate diagnostics through FHD quality video.

SPECIFICATIONS

Optical System	Field of view 140°	Instrument Channel	Channel inner diameter 2.8 mm
	Direction of view Forward viewing		Direction from which endotherapy accessories enter and exit the endoscopic image
	Depth of field 5-100 mm		
Insertion Tube	Distal end outer diameter 10.0 mm	Insertion Section	Angulation range UP 210° Down 90° Right 100° Left 100°
	Distal end enlarged 		Total Length 1,350 mm
	MGS Insertion tube outer diameter 9.9 mm		
	Working length 1,030 mm
